COBAIT PRACTICE MANAGEMENT TECHNOLOGY enables physicians and clinics to focus on patient care and benefit from efficiency, controls and growth capacity without spending staff time on the information technology to support it.

COBAIT technology experts guided by medical practice advisors deliver PRACTICE MANAGEMENT TECHNOLOGY solutions that support patient communications, front and back office automation, records management and information security through a transparent IT infrastructure meeting the requirements of HIPAA, EMR/EHR and medical best-practice.

Solutions include products and services for IT process audits and HIPAA compliance reviews, infrastructure technology acquisition and vendor management, practice application selection and vendor management, implementation, training, onsite or remote IT monitoring and management, helpdesk support and consulting services to help expand the practice through web-based offerings.

Putting technology to work for you

BUSINESS MANAGEMENT RESOURCES FOR YOUR BUSINESS

Delivering quality healthcare is your passion and it should be your focus. Making your practice more efficient can allow you to see more patients without adding hours to your day. Linking directly to pharmacies, labs and insurance providers and having up-to-date records can mean higher service to your patient, less administrative staff and faster payment.

Making sense of the many options for automating your practice from front to back and keeping them working together can take time away from your core mission. Choosing the solutions that make the best sense for you and ensuring that they run smoothly in the background is where COBAIT comes in. As your technology advisor and manager, COBIAT simplifies practice technology so you can keep focused on your practice.

To gain those efficiencies you rely on technology. That technology should work for you, not add work.

BUSINESS IT SOLUTIONS

- IT AUDIT & COMPLIANCE
- INFRASTRUCTURE MANAGEMENT
- TECHNOLOGY MAINTENANCE
- VENDOR MANAGEMENT
- ASSET MANAGEMENT
- LICENSE MANAGEMENT
- MARKETING SUPPORT SERVICES
- BACK OFFICE SUPPORT SERVICES
- END-TO-END PROFESSIONAL SERVICES

flexible solutions for your business needs

IT AUDIT & COMPLIANCE

Annual physical exams and wellness visits are key to good health for your patients. Periodic technology and process checks are equally important to keep information technology working optimally for you. COBAIT IT Audit and Compliance services include:

- practice IT processes, policies, security reviews
- contracts and service agreements reviews
- data retention and archive practices audit
- recommendations for compliance with best practices and HIPAA rules, efficiency and savings

MARKETING & BACKOFFICE SUPPORT

To extend the in-person side of your practice, you can make information available 24/7. COBAIT can provide special services like an Internet Practice with custom domain name, website and managed email services.

END-TO-END PROFESSIONAL SERVICES

Qualified consultants deliver Professional Services for implementation, management, support, upgrades and migration of EMR/EHR and PM software from major vendors including Medisoft, eClinical and NextGen.

BUSINESS MANAGEMENT TECHNOLOGY ENABLING YOU TO FOCUS ON YOUR BUSINESS

INFRASTRUCTURE MANAGEMENT & TECHNOLOGY MAINTENANCE

Underlying the tools, you use to help you serve patients and keep your practice running smoothly is technology you rely on to perform accurately and quickly. And you want it to be transparent to you. COBAIT provides a complete managed infrastructure service which includes hardware, software and network management, maintenance and service. Our analysts and technicians are available 24/7 to provide both on-site and off-site support including remote management and monitoring of all your IT assets.

VENDOR MANAGEMENT

Choosing and managing technology suppliers takes time and knowledge better spent on your practice. COBAIT brings extensive enterprise experience to provide the interface between your practice and the technology vendors. Services include:

- hardware, software and telecom vendor selection
- contract negotiation or re-negotiation for best terms and service levels
